## PROFESSIONAL SUMMARY

Motivated Software Engineering undergraduate with hands-on experience designing and developing secure, scalable, and user-focused web applications. Proficient in ASP.NET Core, React, Next.js, Spring Boot, Express.js, SQL Server, and PostgreSQL. Combines a graphic design background and UI/UX expertise (Figma, wireframing, prototyping, HCI principles) with robust backend capabilities including REST APIs, JWT authentication, role-based authorization, and clean database design. Seeking a Software Engineering Internship to build intuitive digital experiences and contribute to real-world software solutions.

## TECHNICAL SKILLS

|                     |                                                                                                                  |
|---------------------|------------------------------------------------------------------------------------------------------------------|
| <b>Programming:</b> | JavaScript, TypeScript, Python, Java, C#, PHP, HTML, CSS                                                         |
| <b>Frontend:</b>    | React.js, Next.js, Bootstrap, Tailwind CSS, WordPress, Figma                                                     |
| <b>Backend:</b>     | Node.js, Express.js, ASP.NET Core, Spring Boot, Laravel, RESTful APIs, Entity Framework Core                     |
| <b>Database:</b>    | SQL Server, PostgreSQL, MySQL, Prisma                                                                            |
| <b>Tools:</b>       | Git, GitHub, Postman, Swagger, VS Code, IntelliJ IDEA, Photoshop, Illustrator                                    |
| <b>Concepts:</b>    | Full Stack Development, Software Architecture, Authentication & Security, Responsive UI/UX, Usability Evaluation |

## SELECTED TECHNICAL PROJECTS

### Bus Eka — Online Bus Reservation Platform

Next.js · Express.js · Prisma · PostgreSQL

- Led end-to-end development of a full-stack online bus reservation platform featuring recurring trip templates with automated trip generation logic.
- Developed robust route search, seat selection, and passenger booking workflows with an optimized relational database schema.

### HirePath AI — AI-Powered Recruitment Platform

ASP.NET Core · React · SQL Server · JWT

- Contributed to a multi-role recruitment platform for managing candidates, skills, experience, resumes, and job searches.
- Developed backend architecture, security integrations, API endpoints, and validation, plus analytics dashboards using layered architecture and Repository/Service patterns.

### NexaERP — Enterprise Resource Planning System

React · Spring Boot · PostgreSQL

- Developed core ERP modules covering users, roles, projects, tasks, audit logs, and system administration.
- Implemented secure RESTful APIs, database migrations, and role-based access control.

### NextStep — Student Services Platform

ASP.NET Core · React · SQL Server · EF Core · JWT

- Implemented core campus services including Lost & Found, Shuttle Service, and Club Events.
- Built secure JWT-based authentication and role-managed access across student-facing modules.

### Riyasewana Website Redesign

Figma · Wireframing · HCI Principles · Usability Evaluation

- Redesigned the user experience as part of a comprehensive usability evaluation and redesign project, focusing on user flows and prototyping.
